

# PepeDoge Token (PED) Whitepaper

## 1. Introduction

*PepeDoge (PED) is a community-driven memecoin built on the Ethereum blockchain, combining the legendary internet memes Pepe the Frog and Doge. Our goal is to create a decentralized, fun, and engaging ecosystem for crypto enthusiasts worldwide.*

*"PepeDoge is a community-driven project and is not affiliated with Matt Furie or the official Dogecoin project."*

## 2. Tokenomics

*The total supply of PepeDoge (PED) is 842,487,168 tokens, distributed as follows:*

- 30% – Uniswap Liquidity
- 10% – Team
- 15% – Marketing & Growth
- 20% – CEX Reserve
- 10% – Airdrop
- 15% – Community Rewards

*After the Uniswap launch, 75% of the team's tokens will be locked to ensure long-term stability.*

## 3. Utility & Vision

*PepeDoge is more than just a memecoin:*

- NFT Collection – A unique PepeDoge NFT series
- Community Engagement – Rewarding active members and supporters
- Future DAO – Allowing holders to vote on key project decisions
- CEX Listings – Expanding access and liquidity on centralized exchanges
- DeFi Integration – Potential staking and farming opportunities

## **4. Roadmap (2025)**

### **Stage 1:**

- Website and media creation
- Introduction
- Token distribution
- Launch of marketing strategy
- Partnership with top-tier media resources
- Token airdrop for the community
- Attracting 5,000+ holders

### **Stage 2:**

- Token presale
- Development of partnerships and collaborations
- Large-scale airdrop for the community
- Attracting 15,000+ holders
